FOR IMMEDIATE RELEASE

Easy Projects .NET Project Management Software Helps Greenpeace with Campaign Management

Utilized as a platform for information and task management, Easy Projects .NET improves workflow structure and provides Greenpeace Mediterranean real-time tools for effective project management.

Toronto, Canada – January 20, 2010 – Easy Projects .NET, a web-based project management software with support for real-time conferencing and collaboration, is helping Greenpeace Mediterranean improve campaign workflow structure through focused task and information management with real-time tools including resource management, interactive Gantt chart and task dependency support.

“Easy Projects .NET offers many complex features, integral to our campaign management activities, yet it is still able to provide a very user-friendly interface.” says Neset Kutlug, Process Administrator at Greenpeace Mediterranean. “In some of our past campaign initiatives, manual task management and follow-up created time and resource conflicts. Adopting Easy Projects .NET as our project management solution has allowed us to utilize it as a platform to share information and extensive feedback while managing campaign tasks.”

“We are delighted to be involved in helping such an important and recognized organization achieve its campaigning goals.” says Vadim Katcherovski, CEO Easy Projects .NET. “In the current economic climate, many non-profit organizations operate within a very tight budget, thus obtaining a complete project management solution can prove to be quite challenging. With Easy Projects .NET our goal is to keep project management easy and affordable, while still providing all the features and modules required for virtually any project management activities.”

Task dependency management within Easy Projects .NET has allowed the entire project team at Greenpeace Mediterranean to easily link together various campaign tasks, thus saving them a great amount of time in task tracking and entry. Easy Projects .NET also allows Kutlug and his team to effectively organize essential campaign initiatives on the fly through the drag-and-drop functionalities of the built-in interactive Gantt chart.

“Easy Projects .NET has taught us a number of very important lessons concerning our campaign management and the every-day utilization of project management software.” says Kutlug. “We chose Easy Projects .NET because it delivers features other solutions could not adequately provide within our set budget. We now use it to manage all of our campaign initiatives.”

By using Easy Projects .NET Greenpeace Mediterranean takes advantage of an all-in-one project management module set which includes:

- Unlimited Projects and Tasks Time Tracking
- Issue Tracking and Change Request Management
- Real-Time Conferencing (Meetings, VOIP, Webcams)
- Any-Time Asynchronous Collaboration (Share Files, Review and Work on Content)
- Resource Management Tools and Reports
- Portfolio Management
- Custom Fields and Reports
- Unlimited Customer Access

Easy Projects .NET is available as a hosted solution starting at \$24.99/month per user or less. Full pricing information and a FREE Trial Sign-Up are available at www.easyprojects.net/Plans/

About Easy Projects .NET

Easy Projects .NET (www.easyprojects.net) is a Web 2.0, Ajax-based project management and collaboration software with integrated time, issue, and request tracking tools. It is used in over 50 countries by some of the world’s largest organizations including Reuters, Symantec, Staples, United Nations, Lockheed Martin, Centers for Disease Control and Prevention, Ernst & Young, University of California and more. Now in its 6th version, Easy Projects .NET has been developed by Logic Software Inc. since 2003.

About Greenpeace Mediterranean

Greenpeace Mediterranean (www.greenpeace.org/mediterranean) is based on the principle that nature knows no frontiers and neither does the pollution that threatens it. Headquartered in Malta, Greenpeace Mediterranean also actively campaigns from Egypt, Israel, Lebanon, and Turkey to conduct campaigns throughout the region.
